

Dear Pre-k Families,

It is hard to believe that it's already March! Your students are working hard, having fun and making great progress! I hope March brings more sun, less sick days and lots of exciting learning opportunities. 😊

As usual we will be spending a lot of time on writing, pre-reading, and number skills. All lessons will include some or all these qualities and I will continue to differentiate my instruction when I can to meet every child where they are. We also continue to work on classroom routines and expectations that will get them ready for kindergarten next year.

We are finalizing plans for our fire station field trip. This is a free field trip touring Fire Station 24. It is across the street from Juanita Elementary School. The class will walk to the city bus stop by Sandburg Elementary at 11:15 and ride to the Fire Station together. We will then have a 30-minute tour. **Parents will need to pick up their child @ 12:30 at the Fire Station. You can park in the Goodwill parking lot next door.** Permission Slips will be sent home beforehand once we know the exact date. Student drop off is the same and please pack a lunch since we will eat early before we leave. More information will be sent home with an updated calendar as soon as we get confirmation. Thanks for your patience!

If any of you still need forms filled out for your child's kindergarten registration, please let me know and I will take care of it.

Lastly – we go outside rain or shine for recess. Please remind your child that they need coats, hats, and rain boots to stay warm and dry.

As always please let me know if you have any questions or concerns!

Sincerely,
Sally Schroedl
